Matnni o‘qing va savollarga javob bering.

What will life be like in 2050? I think cars will fly and they won’t need drivers. Robots will clean our houses and cook our food. Children won’t go to school every day – they will study online at home. People will probably live longer, maybe to 120! I don’t think we will use paper money. And I hope there will be more trees and cleaner air.
